Education

Chaitanya Bharathi Institute of Technology
BE in Computer Science Engineering (AI-ML)

Nov 2022 – May 2026

- **CGPA:** 9.38
- **Coursework:** Data Structures and Algorithms, Object Oriented Programming, Operating Systems, Database Management System, Computer Networks, Machine Learning, Natural Language Processing

Experience

Web Development Intern
Syncall Technology Solutions Pvt Ltd

Hyderabad, India
June 2024 – July 2024

- Developed a web-based system for managing employee records in collaboration with a cross-functional team, providing admins with secure upload and viewing functionality.
- Actively participated in Agile workflows such as sprint planning, stand-ups, code reviews, debugging, and testing to ensure high quality, on-time delivery.

Projects

Smart Hiring Platform with Resume & Interview Analytics

[Github](#) 

- Engineered a full-stack recruitment platform (React.js, Node.js, Express.js, MongoDB) with RESTful APIs to streamline hiring via intelligent resume screening and video interview evaluation.
- Enabled employers to post jobs, evaluate applications, and review interview performance with delivery analysis (eye contact, confidence, clarity) using OpenCV, DeepFace, SpeechRecognition API, and Gemini AI for content analysis.
- Assisted candidates through mock interviews and personalized insights to improve job readiness.

Full-Stack Website for a Freelancing Company (Metic Synergy)

[Github](#) 

- Designed and developed a responsive website for a freelancing company using MERN stack.
- Implemented an AI-powered chatbot using RAG with Cohere LLM and Pinecone to provide company-specific query resolution and automatically escalate unresolved queries to the support team via email.
- Built survey and appointment booking features with automated email confirmations and an admin dashboard with bar and pie chart analytics to visualize survey data and upcoming appointments.

Active Learning Complaint Classifier using Django & ML

[Github](#) 

- Designed an Active Learning-driven ML workflow leveraging TF-IDF feature extraction and Random Forest models in Scikit-learn, reaching competitive accuracy with just 27% of labeled training data.
- Built a Django web application with PostgreSQL for complaint submission and user authentication.

Technical Skills

Languages: Python, Java, SQL

Web Technologies: HTML, CSS, Javascript, React.js, Node.js, Express.js, Django

Databases: MongoDB, PostgreSQL

Developer Tools: Git, Github, Docker, Azure Cloud

Certifications

- **Microsoft Certified: Azure Cloud Fundamentals (AZ-900)**
- **Oracle Cloud Infrastructure Certified AI Foundations Associate (2025)**
- **NPTEL: Programming in Java – Elite Certification**
